

Breast Cancer Screening (IARC Handbooks of Cancer Prevention)

Twenty-Four Paul Cezannes Paintings (Collection) for Kids, The Philosophers Kitchen, Financial Accounting: A Business Process Approach (2nd Edition), Climate Change and Flood Risk Management: Adaptation and Extreme Events at the Local Level, Technologies of Procreation: Kinship in the Age of Assisted Conception, The 8088 and 8086 Microprocessors: Pearson New International Edition: Programming, Interfacing, Soft, Srila Prabhupada Smaranam, Particleboard, Volume 2: Technology,

In , an IARC Working Group developed IARC Handbook Volume 7 on Breast Cancer Screening. Today, an up-to-date, objective, and independent evaluation of the benefits and harms of all modalities of screening in different age groups and different settings is urgently needed. In , IARC will amend the Working Procedures of the IARC Handbooks of Cancer Prevention. The Working Procedures describe the principles and procedures used in developing IARC Handbooks, including the scientific criteria that guide the evaluations. The decision to produce a handbook on breast cancer screening was timely for several reasons. First, only a few monographs exist that focus exclusively on breast cancer screening, none of which represent a comprehensive treatment of the subject, and all were published before [1 - 4].

A Working Group of 29 independent experts from 16 countries, convened by the International Agency for Research on Cancer (IARC) in November , reviewed the scientific evidence and assessed the cancer-preventive and adverse effects of various methods of screening for breast cancer.

The International Agency for Research on Cancer (IARC) is part of the World Health Organization. IARC's mission is to coordinate and conduct research on the causes of human cancer, the mechanisms of carcinogenesis, and to develop scientific strategies for cancer
