(Volume 1),

A focus group is a gathering of deliberately selected people who participate in a planned discussion that is intended to elicit consumer perceptions about a particular topic or area of interest in an environment that is non-threatening and receptive. The focus group is a collective on purpose.

Instant Focus Group Questions e-book shows you how to integrate research objectives, topics, and focus group questions into the moderator guide.. The e-book is a practical handbook about qualitative marketing research, packed with tips, techniques, and hundreds of questions. A focus group is one of the best ways to discover whether your products or marketing strategies are attractive to your customers. Creating a focus group is not easy and there are many opportunities for the data collected to be inaccurate or misleading. Using the Focus Group in Market Research. These are all examples of a focus group in action. Focus groups are essentially group discussions which rely heavily on the interaction between group members and the relationship between the researcher and the respondents. A discussion guide is prepared prior to the group and the group moderator.
